

The background of the entire page is a light, textured surface covered with numerous water droplets of various sizes. The droplets are rendered in shades of light blue and white, with some showing highlights and shadows that give them a three-dimensional appearance. They are scattered across the page, with a higher concentration in the upper and lower portions.

# Capital

EQUIPMENT SALES

# Experience our Experience

Keeping pace with a rapidly changing global economy means embracing new technologies that can help us do our jobs better. Which, in turn, helps us serve you better.

At Capital, it starts with a top-notch sales and support staff, boasting some 50 years of combined manufacturing sales experience. We also have a state-of-the-art global database and automated information system, allowing us to quickly and thoroughly search the world for machines that meet your specific manufacturing requirements.

## THE RIGHT EQUIPMENT. THE RIGHT PRICE.

The used equipment found in our database and modern warehouse is among the industry's finest—and we're not talking about some other company's rejects. We come by our used equipment by choice, actively seeking out the best machines available through individual purchases or plant liquidations.

Then, depending on your needs, our staff will update your equipment by thoroughly reconditioning the machine and upgrading its controls. Our staff will also install your new equipment and conduct power-up inspections.

Think of it, in a timely and cost-efficient way, Capital delivers you the best possible equipment, tailored to your exact manufacturing needs.

## THE CAPITAL ADVANTAGE.

At Capital, it has long been our goal to be more than an equipment supplier. We want to be your most valuable manufacturing resource. A company you can count on for truly cutting-edge solutions—not the same ideas, from the same old pipeline. We're committed to discovering new talents and fresh innovations—equipment solutions you'll need to stay on top in an increasingly competitive age.

# Your global resource for new & used equipment

At Capital Equipment Sales, we maintain daily contact with national and international manufacturers, helping keep tabs on new ideas and opportunities all across the globe.

**To succeed in today's international economy, you need partners who share your global vision. A partner like Capital.**

Our depth comes from our hands-on working knowledge of a wide range of competitive industrial markets. In fact, our customers rely on us for both new and used equipment in a variety of industries, including Metal Stamping, Plastics, CNC Machining, Fabricating, and Steel Processing.

At Capital, we stay ahead by staying in touch.

*Our modern facility boasts a state-of-the-art global database, automated information system, and 20,000-square foot warehouse.*
